Darwin had planned to put in book form his discoveries. He spent some 20 years on every known fact concerning the problems of the species. In 1859 Darwin published the book he had planned for so many years. It was called "The origin of species" Never has a scientist caused so much stir in the world as Darwin did with that book. His ideas, the result of so many years of patient thinking and study were attacked by intellects and ordinary people alike. People called him mad ; a deceiver and an anti-Christian. Long and bitter disagreements arose in the open, most religious people of that time attacked and accused him of trying to destroy religion and morals totally, through Darwin of course had so such goal in mind. (Weightage : $6 \times 2 = 12$)
